“Not only do these new drums share the timeless look and classic beauty of the originals... but with the combination of it’s signature long lugs and the all new Cherry / Gumwood shells, they deliver the same warm and well-balanced tone that got me hooked in the first place. I have been recording and touring with my 1962 Club Dates for over a decade and I can honestly say, the new Club Dates from Ludwig easily live up to the precedent of their forefathers. These are an affordable and excellent recreation of one of my favorite set of drums. From beginner to pro, you will be amazed with the sound, playability and feel of the all new Club Date”
-Patrick Keeler, The Racconteurs/The Greenhornes

FAB 3 3-PC. SHELL PACK [LR322FX]

Club Date SE Fab22 Shell Pack in Olive Sparkle [LR322FXLV] w/6.5x14 Black Beauty Snare [LB417BT]

With old-school spec and modern swagger, the new Club Date Special Edition kit is made for the gigging drummer with an ear for classic Ludwig sound. Club Date’s dual-tension lugs reduce the amount of weight on each shell, allowing the drums to speak with delicate subtlety at the slightest touch, and open further as played. Three configured shell packs, four sparkle finishes, and a low price tag make Club Date the solution for the collector in need of a playable alternative to vintage gear.

Historic Fact:
 The Club Date kit originated as a lower-cost alternative to Ludwig’s original Super Classic Series. Debuting in 1962, Club Date featured the same shell as Super Classic, but the center-mounted, dual-sided lugs required less manufacturing time.
